

Figures

In the section below, sketch the figure(s) that you think would help contextualize and/or answer your question.

Note: you should be exploring your data visually in more ways than just the figures you have proposed. In other words: you should be making more figures than you will include in a) your final proposal and b) your final project presentation and paper.

Potential figure 1:

Why this figure is relevant:

Winter + 3 more (Fall, Summer, Spring)

Demonstrates relationship between water elevation and species abundance.
